

VIDEO REDACTION PLATFORM

FRONTEND USER STORIES

1. AUTHENTICATION & USER MANAGEMENT

Story 1 - User Registration

Story:

As a new user, I want to access a registration page to create an account so that I can start using the system.

Acceptance Criteria:

- Given I am on the registration page
- When I enter valid details and click "Register"
- Then a new user account should be created
- And I should see a success message or be redirected to login

Technical Tasks:

- Create RegisterPage.jsx form
- Add input validation (email/password rules)
- Integrate with /register API
- Show success/error messages
- Redirect to login page on success

Story 2 - Secure Login

Story:

As a registered user, I want to log in to my account so that I can access my projects securely.

Acceptance Criteria:

- Given I am on the login page
- When I enter valid credentials
- Then I should be authenticated and receive a JWT token
- And I should be redirected to the dashboard

Technical Tasks:

- Create LoginPage.jsx
- Integrate OAuth/JWT login API
- Save JWT in memory or secure storage
- Build ProtectedRoute wrapper
- Update Axios/Fetch to auto-attach JWT

2. PROJECT MANAGEMENT

Story 3 - View Project List

Story:

As a user, I want to view a list of all my existing projects to select one for work.

Acceptance Criteria:

- Given I am logged in
- When I open the dashboard
- Then I should see all my projects in a list/grid

Technical Tasks:

- Create ProjectsList.jsx
- Fetch /projects API
- Render list using cards or table
- Add loading/error states

Story 4 - Project Details

Story:

As a user, I want to click on a project to view its specific details and associated videos.

Acceptance Criteria:

- Given I am on the project list
- When I click a project
- Then I should be navigated to a project detail screen showing videos and metadata

Technical Tasks:

- Create ProjectDetailsPage.jsx
- Fetch /projects/{id}
- Display project info + videos list

Story 5 - Create Project

Story:

As a user, I want to create a new project via a dashboard interface so that I can organize my video redaction tasks.

Acceptance Criteria:

- Given I am on the dashboard
- When I click "Create Project" and enter a valid name
- Then the project should be added to my list

Technical Tasks:

- Build CreateProject.jsx
- Form validation
- POST/projects
- Refresh project list

Story 6 - Delete Project**Story:**

As a user, I want to delete a project I no longer need to remove it from my dashboard.

Acceptance Criteria:

- Given I click delete on a project
- When I confirm the deletion
- Then the project should disappear from the list

Technical Tasks:

- Build confirmation box/panel
- DELETE /projects/{id}
- Update UI list after delete

3. VIDEO MANAGEMENT

Story 7 - View Videos Inside a Project

Story:

As a user, I want to see all the videos associated with a project so that I can choose which one to redact.

Acceptance Criteria:

- Given I am on project details
- When the page loads
- Then I should see all videos belonging to that project

Technical Tasks:

- Create VideosList.jsx
- Fetch /projects/{id}/videos
- Render video cards

Story 8 - Upload Video

Story:

As a user, I want to upload full-length videos to a specific project so they can be processed for redaction.

Acceptance Criteria:

- Given I click upload
- When I select a valid video file
- Then upload progress should display
- And the video should appear in the project list

Technical Tasks:

- Build VideoUploadComponent.jsx
- Implement file upload & progress bar
- POST /videos/upload
- Refresh video list

Story 9 - Delete Video

Story:

As a user, I want to remove a video from a project if it was uploaded by mistake or is no longer needed.

Acceptance Criteria:

- Given I choose to delete a video
- When I confirm
- Then the video should be removed from the list

Technical Tasks:

- Confirmation dialog
- DELETE /videos/{id}
- UI update

Story 10 - View Video Metadata

Story:

As a user, I want to view metadata of a video upon its selection.

Acceptance Criteria:

- Metadata shows duration, size, upload date

Technical Tasks:

- Build VideoMetadata component
- Fetch /videos/{id}/metadata

Story 11 - Play Video

Story:

As a user, I want a video player so that I can watch the uploaded video.

Acceptance Criteria:

- Embedded player should support play/pause/seek

Technical Tasks:

- VideoPlayer using HTML5 <video>
- Load video from server URL

4. REDACTION WORKFLOW (EDITOR INTERFACE)

Story 12 - Select Redaction Categories

Story:

As a user, I want to select which object types should be detected (Faces, ID cards, Screens, Reports, Branding).

Acceptance Criteria:

- Checkboxes toggle each detection type
- Selection saved for detection request

Technical Tasks:

- Create RedactionConfig component
- Manage category selection state

Story 13 - Configure Mask Styles

Story:

As a user, I want to choose a mask style (blur, emoji, pixelate, blackout) for each selected category.

Acceptance Criteria:

- Dropdown for each selected category
- Changing mask updates preview

Technical Tasks:

- Create MaskStyleSelector.jsx
- Update preview overlay in real-time

Story 14 - Start Detection

Story:

As a user, I want to click a button to start detection.

Acceptance Criteria:

- Button triggers detection job
- UI shows job status (running/completed)

Technical Tasks:

- POST /videos/{id}/detect
- Poll job or use websocket
- Show spinner/progress

Story 15 - Preview Redaction

Story:

As a user, I want to see how redaction looks before finalizing.

Acceptance Criteria:

- Video overlays show bounding boxes and mask preview

Technical Tasks:

- Build VideoPlayerWithOverlay.jsx
- Sync overlay JSON with playback

Story 16 - Edit Detection Boxes

Story:

As a user, I want to adjust detection boxes.

Acceptance Criteria:

- User can resize, drag, delete detection boxes

Technical Tasks:

- Implement editable bounding box layer.
- Maintain edited mask positions in state.

Story 17 - Add Manual Mask

Story:

As a user, I want to draw a new mask box manually.

Acceptance Criteria:

- Draw tool adds a new box to overlay
- Mask appears in video preview

Technical Tasks:

- Add drawing tool mode
- Store new masks in overlay JSON

5. FINALIZATION & NOTIFICATIONS

Story 18 - Generate Redacted Video

Story:

As a user, I want to click a "Redact" button to request the final processed video.

Acceptance Criteria:

- Clicking button triggers redaction job
- Job appears in job list

Technical Tasks:

- POST /videos/{id}/redact
- Show job card with status

Story 19 - Job Notifications

Story:

As a user, I want to receive a visual notification when detection or redaction completes.

Acceptance Criteria:

- Notification appears when job status changes to "completed"

Technical Tasks:

- Websocket listener / polling
- Build toast notifications UI

Story 20 - Download Final Video**Story:**

As a user, I want to download the final processed video.

Acceptance Criteria:

- Download button appears only when redaction job is completed
- Clicking downloads video to device

Technical Tasks:

- Add DownloadButton
- Handle file download
